Sonoma Raceway is looking for part-time Course Marshals to work on the track during raceway events, including NASCAR, IndyCar, racing school programs, NASA, 24 Hours of LeMons, CSRG & open test days. Course Marshalls closely observe the on-track action to ensure the safety of the drivers & crews responding to incidents on the track. Job responsibilities include, but are not limited to, the following:

- Work in a Course Marshal "box" monitoring a turn on the road course.
- During an on-track incident, wave the correct flag to inform competitors of an accident, oil, etc.
- Communicate with Race Control on track conditions that may affect drivers' ability to race safely.
- Provide information to track safety crews.
- Pay after training: \$13.50/hr

Interested applicants should submit their resume & cover letter (if desired) to: marshallsonoma@gmail.com

Note: Kevin McConnell of Stand21 will be at the Charity Challenge. If you are interested in being measured for a suit or helmet, please let me know via email.

Stand21 has very kindly donated another of their top of the line helmets to the raffle. Ed Lauber won it last year & you could do it this year.

This is a dual standard FIA 8860/SA2015 helmet that retails for \$3,250. & considered to be the safest helmet in the world. It is the same helmet and standard required and used by Formula 1 and IndyCar drivers. It is a thicker and more technically advanced shell due to the dangers of the open wheel nature in those series. Here is some more data:

Technical data:

- Full carbon fiber shell
- Kermel (fire resistant) inner padding
- 3mm polycarbonate visor, fire and impact tested
- EPP (Expanded Polypropylene) memory liner for a longer life and protection in multi-impact crash
- SNELL SA 2015 & FIA 8860-2010 standards
