CSRG's "Contact Patch"

Greetings!

John Morton to Attend the Charity Challenge

Photo: Dennis Gray

John Morton, ex-Trans-Am, Can-Am, IMSA GTP, F5000 & too many other types of race cars to list them all here will be at the Charity Challenge, overseeing the series named after him, the John Morton Cup. In fact, if a car can be found for him, he may race that weekend. Somebody even suggested he drive an Alfa....

As for getting Other Drivers to the CC:

Drivers are welcome if they have:

- **A license issued by a member organizations of the Vintage Motorsport Council**
- **An eligible car.**
- **No infractions/issues on their license.**

=====
The following is a brief list of some of the infractions that have occurred over the last few seasons. We respectfully ask that you please read them & take them to heart.

Driver Conduct

(A compilation of the most common infractions)

- **If for any reason you are late to the grid or fail to leave the grid**

with the pack, you may not regain your starting position. You will start from the back.

- If the pace car lights are flashing, you must follow under all circumstances. (e.g., bringing group through pit lane, controlling group for multiple laps, etc.)
- When behind the pace car, keep pace with the cars around you to avoid holding up the group.
- Tire scrubbing is not allowed when cars are side-by-side.
- Check your gauges twice a lap. Help prevent lost fluids and lost track-time.
- The safest way to pass is with a point-by. Give a point-by as often as you can. (Passing is detailed on Page 1 of the CSRG Driver Handbook)
- If you see a RED flag, immediately slow and check your mirrors. Come to a complete stop as soon as you can do so safely, and within sight of a flag stand. Stopped on a red flag you may turn off your engine, but do not remove your seatbelts, helmet, or any other safety gear. Await flagger signal to continue.
- If you see a BLUE & YELLOW flag, check your mirrors and be aware that you are about to be passed. You do not need to lift or move over, just be aware that there is a faster car approaching.
- If you deviate (spin, four wheels off, pass under yellow, contact) or if you see a standing black flag (sometimes accompanied by a finger point or a number board) you must report to the Black Flag station immediately.
- Do not cross the track unless you have clear direction by a course marshal to do so. For example, at Sonoma if you spin exiting T11 and end up in the middle, you may not cross into the pit lane until directed to do so.
- Altercations both verbal and physical should be avoided at all costs. Report any altercations to the Race Director or a CSRG Board Member immediately. Do not try to resolve the situation yourself.

If you have not read the CSRG Driver Handbook please do so. If you have, please consider re-reading it to refresh your memory. It contains valuable information about exactly what CSRG expects of its drivers, and how to be a welcome participant at any track event.

CSRG Newsletter

We would like to start publishing a

monthly newsletter, as we have in the past, but this one will be purely digital. As usual we need somebody to step up & volunteer to produce it. Time to give back, if you will.

If your first reaction is you don't have the time, please spare us that excuse. Nobody has the time, you're

overworked; we're all busy, blah, blah, blah. This could be as fun a project as you make it.

If you have the required skills--the gift of gab; an understanding of the club & its members & some idea of how to navigate a computer, you're qualified. Come on, stretch your mind & try it!

If you are interested, please contact: csrglocke@gmail.com

SAFETY NOTICE

The Crossflow Cup

The Crossflow Cup for Vintage Formula Fords & Club Fords has the premier FF series in vintage racing. 2018 was a banner year. It can best be summed up by saying we had 50 FFs at the Charity Challenge with zero, I repeat, zero incidents. The racing is intense, but fair all the way through the grid. Most importantly there is a bond between all of the drivers that encourages good sportsmanship.

Have a Vintage or Club FF? Come join us.

[USRRC Race Group 4](#)

In 2019 CSRG's Race Group 4 will showcase the Sports Racing cars that were associated with the USRRC Championship that ran from 1963 to 1968. Beginning with the David Love event April 12 through 14, our USRRC Race Group 4 will include both Over 2 liter period and Under 2 liter period cars that ran during the time of the original series. At our events both over and under cars will run together throughout the weekend and will be gridded based on qualifying and heat races.

After each Saturday's final, we will have a podium ceremony acknowledging the top three finishers in each group, Champagne will be sprayed, accolades given and racing stories told! Questions, need more information? Contact Mike Summers at: bluesbrother30@yahoo.com

50 Series Tires

We have noticed some cars in G2 & G3 running 50 series tires which are not allowed under CSRG rules. There are some exceptions (G8 cars moved to G2 or G3, for example), but the vast majority of the cars are not allowed to run 50 series tires.

Attention Production Car Owners--A, B & C Sub-Groups Go Into Effect in 2018

Unless you request otherwise, the default class group for Production Cars (i.e. Race Groups 1, 2, 3 & some cars in 8) will be 'C'---that being cars conforming to the 1972 rules set.

However, if you feel your car qualifies under an earlier (1962 or 1967) rules set, you may have your car reviewed by the appropriate individual listed in the table below.

The A, B & C Classes are:

'A'=prepped to 1962 rules
'B'=prepped to 1967 rules
'C'=prepped to 1972 & newer)

Important: All three "classes, will be timed and scored in a way that will show their overall position & their position within the class.
