=====

The following is a brief list of some of the infractions that have occurred over the last few seasons. We respectfully ask that you please read them & take them to heart.

**Driver Conduct**

**(A compilation of the most common infractions)**

- If for any reason you are late to the grid or fail to leave the grid with the pack, you may not regain your starting position. You will start from the back.
- If the pace car lights are flashing, you must follow under all circumstances. (e.g., bringing group through pit lane, controlling group for multiple laps, etc.)
- When behind the pace car, keep pace with the cars around you to avoid holding up the group.
- Tire scrubbing is not allowed when cars are side-by-side.
- Check your gauges twice a lap. Help prevent lost fluids and lost track-time.
- The safest way to pass is with a point-by. Give a point-by as often as you can. (Passing is detailed on Page 1 of the CSRG Driver Handbook)
- If you see a RED flag, immediately slow and check your mirrors. Come to a complete stop as soon as you can do so safely, and within sight of a flag stand. Stopped on a red flag you may turn off your engine, but do not remove your seatbelts, helmet, or any other safety gear. Await flagger signal to continue.
- If you see a BLUE & YELLOW flag, check your mirrors and be aware that you are about to be passed. You do not need to lift or move over, just be aware that there is a faster car approaching.
- If you deviate (spin, four wheels off, pass under yellow, contact) or if you see a standing black flag (sometimes accompanied by a finger point or a number board) you must report to the Black Flag station immediately.
- Do not cross the track unless you have clear direction by a course marshal to do so. For example, at Sonoma if you spin exiting T11 and end up in the middle, you may not cross into the pit lane until directed to do so.
- Altercations both verbal and physical should be avoided at all

costs. Report any altercations to the Race Director or a CSRG Board Member immediately. Do not try to resolve the situation yourself.

If you have not read the CSRG Driver Handbook please do so. If you have, please consider re-reading it to refresh your memory. It contains valuable information about exactly what CSRG expects of its drivers, and how to be a welcome participant at any track event.

## **SAFETY NOTICE**

### **Formula Car & Sports Racer Car Owners Take Note:**

All too frequently there are cars out there with adjustable steering columns that have worn out bushings, incorrect (fully threaded) hardware on them or have oblong holes/distorted slots---or all three! Dangerous is an understatement. Please check your cars.

## Seatbelts

If you have used seatbelts that are in good condition despite being past their expiration date, we want & need them.

If you have some, please contact Henk Boverhuis:  
[h.boverhuis@gmail.com](mailto:h.boverhuis@gmail.com)

## 50 Series Tires

We have noticed some cars in G2 & G3 running 50 series tires which are not allowed under CSRG rules. There are some exceptions (G8 cars moved to G2 or G3, for example), but the vast majority of the cars are not allowed to run 50 series tires.

## Attention Production Car Owners--A, B & C Sub-Groups Go Into Effect in 2018

**Important: All three "classes, will be timed and scored in a way that will show their overall position & their position within the class.**
